

Art and Design for Secondary Schools

F2

F2

This Art and Design textbook for Secondary Schools form 2 is written to conform with the new revised Art and Design Syllabus by the Curriculum Development in Zambia. The book includes drawings and paintings by Zambian prominent visual artists. The book also contains pictures and illustrations selected from some of the world's greatest artworks. These artworks have been specifically selected to suit the topics covered. I have no doubt whatsoever that students in particular would love to look at such works.

The book aims at developing students' creativity through exposure to practical activities, tools, materials and techniques used in Art. This book further serves as a guide for teachers on how to approach the syllabus and how to set monthly tests. At the end of each chapter, students are either provided with assignments or short-answer questions. Comprehensive definitions of art terms and essay questions are also included.

ABOUT THE AUTHOR

Mwelwa Z. Mwansa has formerly been a teacher of Art at Butondo Secondary School in Mufulira, Zambia. He later moved to Botswana where he taught Art in various schools. He left Botswana for Zambia and continued to teach Art at LICEF Secondary School in Lusaka and later at Mpelembe Secondary School in Kitwe. He has also lectured at Evelyn Hone College in the School of Education. With him lies vast experience of teaching Art at both Junior and Senior Secondary School levels in Zambia and Botswana, and this is fully reflected in this must 'have' text.

The Author holds a Bachelors of Arts degree in Fine Arts from Almeda University, USA, a Teacher's Diploma in Art from Evelyn Hone College of Applied Arts and Commerce, Lusaka, Zambia and a Certificate in Computer Graphics from Intec College, South Africa.

Art and Design for Secondary Schools

This Art and Design for Secondary School form 1 textbook is written in line with the revised Art and Design Syllabus by the Curriculum Development Centre in Zambia. The book contains pictures and illustrations, mostly in colour, selected from some Zambian visual artists and those of the world's greatest artworks.

The book has been written to test the students' understanding of Art concepts, materials and techniques as well as historical and cultural aspects of Art. At the end of each chapter, students will be tested by doing assignments and multiple-choice questions. I would like to mention here that the questions are carefully selected to test the students' understanding of art concepts. Answers to multiple-choice questions are provided at the back of the book.

The book further serves as a guide for teachers on how to approach the syllabus and set examination questions. Comprehensive definitions of art terms are also included.

ABOUT THE AUTHOR

Mwelwa Z. Mwansa has formerly been a teacher of Art at Butondo Secondary School in Mufulira, Zambia. He later moved to Botswana where he continued to teach Art in various schools for 25 years. He left Botswana for Zambia and continued to teach Art at LICEF Secondary School in Lusaka and at Mpelembe Secondary School in Kitwe. He has also lectured at Evelyn Hone College in the School of Education. With him lies a vast experience of teaching Art at both Junior and Senior Secondary School levels in Zambia and Botswana, and this is fully reflected in this must 'have' text.

The Author holds a Bachelors of Arts degree in Fine Arts from Almeda University, USA, a Teacher's Diploma in Art from Evelyn Hone College of Applied Arts and Commerce, Lusaka, Zambia and a Certificate in Computer Graphics from Intec College, South Africa.

Physical Education
For
Secondary Schools

This Physical Education for Junior Secondary Schools form 1 textbook is written in line with the revised Syllabus by the Curriculum Development Centre in Zambia. Physical Education in simple words is understood as learning with the help of movements of body and realising the benefits at mental level. It also means education through the use of physique and physical movements and deriving advantage from them for social gain.

Physical education consists of many different sports and activities, giving students ability to compete and learn a variety of games. The main objectives of physical education are to: develop motor abilities like strength, speed, endurance, coordination, flexibility, agility and balance, as they are important aspects for good performance in different games and sports.

At the end of the chapters, students will be tested by doing multiple-choice questions and short-answer questions. I would like to mention here that the questions have been carefully selected to test the students' understanding of concepts, materials and techniques used in physical education. Also included are comprehensive definitions of physical education terms.
